### MEET THE DIFFERENCE

Personal attention and a unique range of solutions: for more than 100 years, this has been our trademark at Royal Eijkelkamp. Royal Eijkelkamp has been devising, developing, producing and delivering smart solutions for soil and water projects worldwide.

# SMART TURNKEY SOIL & WATER SOLUTIONS

## Different companies, one binding factor

Royal Eijkkelkamp comprises of different companies with one binding factor: the focus on soil and water. Each of the companies has its own speciality, and together with the NL-Food Security Alliance they can do complete turnkey projects.

## Projects by Royal Eijkkelkamp

Royal Eijkkelkamp concentrates on soil and water related projects, related to the following themes: Land degradation, Food security, Natural resources, Land development, Urbanisation and Pollution.

## Case - Sri Lanka

Under instructions of the Sri Lankan Ministry of Irrigation and Water Resources Management, Royal Eijkkelkamp started in various regions of the South Asian country with the realisation of a groundwater monitoring network.

Like many other countries, Sri Lanka faces a variety of groundwater related problems. Groundwater is becoming scarcer, population growth increases the demand for groundwater, and a large variety of users causes fluctuations in level, quality and composition of the groundwater.

The groundwater monitoring network, consisting of 150 measuring locations, will provide the decision-makers of the ministry with timely, reliable and accurate data, based on which groundwater related problems can be monitored and managed.

This project is a perfect example of the turnkey solutions Royal Eijkkelkamp offers. In addition to the equipment, Royal Eijkkelkamp takes care of all activities within the project, from research, design, development, financial structuring, planning, management, implementation and training to functional delivery of the whole.

# NL-FSA

The NL-Food Security Alliance (NL-FSA) is a network of mainly Dutch companies and institutions developing exclusive and sustainable solutions in the agri-water-food-business.

NL-FSA is a Royal Eijkkelkamp initiative
